Allen Kang

Senior Product Designer

allensmkang@gmail.com · mooque-dev.github.io/mastercard · linkedin.com/in/mooque · Toronto, Canada

Senior product designer with 8 years in product design, the last 5 in payments and transaction-heavy products. I take products from zero to one, learn unfamiliar domains from the people who work in them, and design the moments where money and data have to be right: checkout, split payments, and syncs between financial systems.

EXPERIENCE

Aplos (now Velora) · Senior Product Designer — Feb 2025 – Jun 2026

- Owned end-to-end design for payments and transactions across Aplos, Keela and Raisely as the three products merged into one suite.
- Paused a checkout change that already looked like a win, then A/B tested three fixes against control; fee opt-in rose from 75% to 92% with conversion steady.
- Learned tax receipting rules in Canada, the US and Australia to redesign split transactions, cutting categorization tickets by 70% in the first month.
- Designed visible, auditable data mapping for the first integration the merged companies shipped together.
- Grew Orchid into a shared library of 340+ components used by three engineering teams. Mentored two designers.

Keela · Lead Product Designer — Mar 2023 – Feb 2025

- Led product design for the CRM's core: the contact record, Pipelines, and Reports & Dashboards.
- Pitched the Orchid design system with surveys from five departments and earned two dedicated front-end engineers. Mentored one designer.

Keela · Product Designer & Associate PM — Feb 2021 – Mar 2023

- Took Automation, a no-code workflow builder, from zero to one: 15 interviews to a paid add-on in five months.
- Reached 30% adoption across 355 organizations, contributing to a 13% ARR increase.
- Stepped in as Associate PM to ship Pipelines.

Forkable · UX/UI Designer (Contract, part-time) — Jan 2020 – Sep 2022

- Moved design from Sketch to Figma and built the component library and design system.

MyJourney · UX/UI Designer (Part-time) — Aug 2019 – Jul 2022

- Designed data-dense clinician dashboards for tracking patients through treatment, and tools for cancer conference teams.

Earlier · Xperly, founding product designer; ROSSUL, junior UX/UI designer — 2018 – 2019

BUILT FROM ZERO

Forkestrate · Co-founder and founding designer, AI recipe app — 2025 – Present

- Co-founded and designed a recipe app with a PM and two engineers, reaching MVP in under three months.

ARND · Founder, live-music discovery app — 2025 – Present

- Designed and built a live-music app for Toronto's small shows, now in public beta at arnd.app.

Yuwol Productions · Internal tools for a Toronto musical company — Oct 2025 – Present

- Built scheduling, a bilingual script reader and a bill splitter, used daily by a forty-person company.

SKILLS

Payments and checkout · Experimentation and A/B testing · Data visualization · Design systems · Research in unfamiliar domains · Prototyping in code (React, TypeScript) · Figma, Storybook, Pendo, Amplitude

EDUCATION & CERTIFICATIONS

Bachelor of Design, Graphic Design · YSDN (York University & Sheridan College joint program), 2012 – 2017

Certifications: IDEO U From Ideas to Action · Google Cloud Generative AI Fundamentals, Responsible AI · Georgia Tech Python & Data Structures
